Title: LISA the Joyful
Genre: Adventure, Indie, RPG
Developer:
Dingaling
Release Date: 24 Aug, 2015

a09c17d780

English

LISA the Joyful is an interesting continuation of an amazing game. The DLC story takes place right after the end of LISA and has lots of fun to it. The DLC was short, roughly three to four hours, but was a lot like the original in many ways. It had a good amount of challenge in it, but it got a little too easy when you got the "Mend" ability and you could just continuously heal yourself while your TP meter builds up and you can use some of your more dangerous attacks. Overall it was a good game with an amazing story to boot, but I think that it could use a little more challenge and a little more gameplay just to enhance the feel of it.
